

Suggested Enrichment Activities to support Climate Zones & Biomes

I enjoy reading, writing and speaking.	Create a poem about the sights and sounds you would observe in the rainforest. 	How did they build the Christ the Redeemer statue? Can you film yourself explaining it?	Look in your school bag. Imagine you were stranded in the rainforest; how could you use those items for survival?	Choose 5 people you would like to be stranded in the Amazonian Rainforest with. Explain why you would want each person there, and what they would bring to your group to help you all survive.	Create a fact file about any biome on the planet. Include: Where it is. Type of biome. Weather. Animals. Plants.
I enjoy being mathematical and scientific.	Find the name of 5 different animal homes. E.g. a badger lives in a set.	Draw and label 3 different animal food chains. 	Go for a bug hunt (garden or on a walk with your family). Draw a bar graph to show the results of what you find.	Choose 4 animals and draw a sorting branch diagram.	1. Draw and label a bar graph to show the average monthly temperature for Manaus, Brazil. 2. Draw and label a line graph to show the average monthly rainfall for Manaus.
I enjoy being creative, painting, drawing and visualising.	Sketch a picture of an animal you would find in the rainforest.	Draw or paint a picture of a Brazilian bird of paradise.	Design and create a raft. Make sure it can float! 	Make a 3D pop-up book including facts about a biome and the animals in it.	Design and make a Brazilian carnival mask or hat. 
I enjoy being active and doing hands-on activities.	Create a map of a secret location in the rainforest. 	What is a Brigaderios? Make some and take photos of the different stages.	Make a Brazilian samba instrument that will create a carnival rhythm and beat.	Get creative with fruit and vegetables! Can you apply your chopping skills and make animals that you may find in the rainforest?	Create a piece of artwork inspired by the Brazilian artist Romero Britto.
I enjoy finding out about the world around me.	Portuguese and Spanish are languages in South America. Find the words for: plane, raft, forest, explorer & banana in both languages.	Research the names of all countries in South America and their capital cities.	Who discovered Machu Picchu and what was found there? 	Research an Amazonian tribe who still live in the rainforest today. Present information about their lifestyle.	Research a famous explorer from any time in history. Where did they explore? What did they find? What are they remembered for?
